👤 Summary

Performance-driven Full-Stack Engineer and **3rd-year B.Tech student** at IIIT Bhagalpur with production-level freelance experience and **490+ competitive programming solutions** compiled. Expert in MERN architectures, client-side state management, and high-performance rendering. Proven record of reducing digital processing latencies by **77%** and automating workflows to cut review cycle overheads by **70%**. Specialized in deploying custom architectural wrappers and microservices for low-latency systems.

✂ Technical Skills

Languages: C, C++, JavaScript, TypeScript, SQL

Frontend Development: React.js, Vite, Redux Toolkit, Tailwind CSS, GSAP.js, HTML5, CSS3, EJS

Backend & Databases: Node.js, Express.js, MongoDB, Mongoose ORM, Custom Headless CMS Architecture

DevOps & Infrastructure: Git, GitHub Version Control, Netlify Engine, Render, Postman API, Cloudinary CDN

System Optimization & AI: Custom Server-Side Prerendering (SSR), Google Search Console, Technical SEO, RAG Pipelines, Vector Embeddings, Local LLMs (Ollama), OCR Systems

📁 Experience

Lead Software Developer & Systems Architect (Freelance)

May 2026 – Jun 2026

Karrs Builders Pvt. Ltd. | [karrsbuilders.in](#)

Patna, Bihar

- Optimized website loading speeds by **77%**, reducing Largest Contentful Paint (LCP) from 4.5s to under **1.0s** by engineering a custom client-side Node.js prerendering pipeline (SSR) and asymmetric WebP compression assets.
- Engineered a custom Headless CMS admin core via React, Redux Toolkit, and MongoDB, automating live catalog synchronization and cutting static content updating overhead by **40%**.
- Boosted localized domain indexation and organic site discovery rate by integrating dynamic automated sitemaps via Google Search Console and configuring strict layout metadata properties.
- Architected clean production build configurations deploying distributed client layers on Netlify and server execution threads to Render with verified continuous deployment workflows.

Core Member – Developer Community (DevC)

Jan 2026 – Present

IIIT Bhagalpur

On-Campus

- Coordinated **5+ high-impact technical hackathons** and workshops for **200+ active coders** after being selected via a competitive 3-stage process isolating the top 5% of applicants.
- Elevated cohort placement test performance profiles by providing direct technical mentorship to **20+ junior students** in Advanced Data Structures & Algorithms and full-stack software paradigms.

🔧 Projects

LawAdda – AI Legal Document Platform | *MERN, RAG, OCR, Ollama, Tailwind*

🐙 [GitHub](#) 📄 [Demo](#)

- Accelerated physical legal document review throughput by **70%** by developing a full-stack automated text extraction platform utilizing a localized RAG data model wrapper.
- Designed a sub-second document vector pipeline parsing unstructured multi-format scanned files via bilingual Tesseract OCR engines into modular semantic token chunks mapping to local JSON database tables.
- Mitigated external data leakage vulnerabilities to a absolute **0% retention threshold** by structuring privacy-centric APIs that invoke edge domain validators alongside local LLMs (Ollama/Mistral).

Anonymous – Secure Messaging App | *Node.js, Express.js, EJS, MongoDB*

🐙 [GitHub](#) 📄 [Live](#)

- Maintained a verified **100% operational uptime benchmark** post-release by programming a secure server-side rendered (SSR) chat hub utilizing Express, EJS styling templates, and relational Mongoose data bindings.
- Isolated application business components by rolling out **5+ secure RESTful API endpoints** hardened by cryptographically signed JWT role-protected router access guards.

🏆 Achievements

🔥 **CodeChef** Highest Rating **1510**

📄 **LeetCode** Rating **1490** – [Vivek_rakesh_tiwary](#)

🏆 **SIH 2025** Grand Finalist (Waitlisted, Team: COD-i, Prob: 25041)

📄 **490+ total algorithmic problems** resolved with optimal runtime complexities across online platforms.

🏆 **Codeforces** Rating **1016** – [codeslayer006](#)

👑 **Winner** – [FOSS Hack 2026](#) (Solo, Project: LawAdda)

🏆 **SIH Institute Hackathon** – Rank 36 out of competing teams

🎓 Education

Indian Institute of Information Technology, Bhagalpur

2024 – 2028

B.Tech in Electronics and Communication Engineering (3rd Year)

CGPA: 7.81 / 10

Mahendra Public School

2023 – 2024

Class 12th – CBSE

Percentage: 86.8%

Kendriya Vidyalaya Kankarbagh, Patna

2021 – 2022

Class 10th – CBSE

Percentage: 90.4%
